#### C2. INFORMATION AND COMMUNICATION INFRASTRUCTURE (44 projects)

**Security and Integrated Flood Network System**

Under the Smart Community initiative, MCMC has developed a few key projects to foster challenges in fulfilling the objectives of Smart Nation which includes access to digital technologies. One of the projects is called Security and Integrated Flood Network (SAIFON). SAIFON consists of the basic IOT components which is Hardware, Network and Data Analytics to bring solution to the communities in creating a better way of life through the use of ICT. This is also in line with one of the objectives of Smart Community. The system is fully developed by Malaysians and currently being used at Kota Belud Smart ...

#### C3. ACCESS TO INFORMATION AND KNOWLEDGE (29 projects)

**e-Magazine Development at Schools for Smart Community Districts in Malaysia**

Over the years, schools in Malaysia always face the challenge in financing the annual magazine due to a limited budget allocation. Schools annual magazine which is usually published by the school with graphic layout and printing done by a private company and usually financed by the students themselves when they make a purchase. As cost for printing becomes more expensive, and as community advertising and sponsorship becomes scarce, the burden of deficit in funds to publish an annual magazine have to be either borne or shared by the schools and Parents/Teachers Association. Another reason is due to the rapid adoption of digital technology...

#### C4. CAPACITY BUILDING (46 projects)

**MyCommunity! Heroes for Smart Community in Malaysia**

MyCommunity Heroes is an educational and action-packed social entrepreneurship program targeted towards Malaysian Communications and Multimedia Commission's Smart Community districts which are Putrajaya, Langkawi, Kota Belud, Lundu and Kemaman. The program aims to equip the students with fundamental skills of social entrepreneurship where they will identify social problem they want to address in their community and develop a social enterprise to solve the issue. Updates and awareness will be spread through social media platforms to reach out to public on the ongoing social projects. Through connecting the community, empower the power ...
